WORK EXPERIENCE

Lead JavaScript Engineer

Pronto Housing

04/2022 - 02/2023

New York, NY

- Built core features that allowed the company to attract investors and increase the number of customers interested in the product.
- Successfully managed a team of Front-end Developers responsible for maintaining and developing new features.
- Re-engineered critical modules to optimize the performance and usability of different features of the company's software.
- Successfully fixed simple and complex technical issues achieving a high satisfaction rate.

JavaScript Engineer

Pronto Housing

07/2021 - 03/2022

New York, NY

- Led the implementation of PDFTRON API to build several of the company's core features.
- Increase coding efficiency by up to 50% of several of the company's features.
- Integrated third-party tools and components into the web app.

JavaScript Engineer

NarrativeWave

10/2020 - 06/2021

Guadalajara, Jalisco, México

- Contributed to developing one of the most critical features of the company software.
- Created custom graphics sets for clients using Angular for mobile and desktop platforms, with 99% client satisfaction scores.
- Designed and developed reusable software components, which allowed the development team to reduce the development effort by 30%.

Front-end Developer

Amplemind

01/2016 - 10/2020

Guadalajara, Jalisco, México

- Developed 30+ web projects with technologies like HTML5, JavaScript, React.js, Next.js, Node.js and Angular. My contributions helped the company increase its revenues significantly.
- Contributed as a CSS developer in +10 projects for international companies such as Puma, Michael Kors, and Louis Vuitton, which allowed me to develop solid skills in creating user interfaces.
- Successfully converted a big project from Adobe Flash to React.js.
